

# The Bishop's Knights of Electra Chess Club

The first ever competitive chess club will soon be up and running! Our goal is to have students in **grades 5-12** actively involved and competing by next year. We plan to start holding practices throughout the remainder of the year and start learning the fundamentals of tournament chess. We will also hold a few chess nights.

Starting at the beginning of next year we will get all active members registered with the USCF (United States Chess Federation). This will allow members to earn ratings, when playing at tournaments, and allow them the opportunity to move up in player status and division. The membership will be good for 12 months so students can even compete on their own during the summer at tournaments to continue to boost their rating.

If you are interested in joining or have any questions, contact Mrs. Bishop or Mrs. Bruce.
